

Conserve.
Protect.
Reuse.

Sheridan

When printing your titles, Sheridan makes every effort to reduce our carbon footprint, reuse energy and resources, minimize waste during the manufacturing process, and stock a variety of materials that include FSC and recycled paper options for our publishers to use. Here is a closer look at a few of the many ways we do this at our book manufacturing location in Michigan.

33

number of FSC certified papers in stock

2008

year Sheridan MI became FSC® certified

9

number of recycled papers in stock

100%

paper, trash, ink cartridges, plates & cardboard are recycled

paper sourced from mills/distributors that are SFI, FSC, or PEFC certified

environmental laws & regulations met or exceeded

vegetable oil & soy based inks used

92%

Percent of consumers who say a product or manufacturer's environmental sustainability has some impact on their purchasing decisions.
